MBEs/WBEs/LBEs

The San Francisco Board of Supervisors enacted a Prompt Payment Policy into the MBE/WBE/LBE Ordinance III which took effect July 1, 1992. This Policy is: MBEs, WBEs, and LBEs are to be paid for work performed for the City within 60 days of the date that the invoice is received by the City, provided the order is complete, in good condition, and in compliance with the terms of the contract.

As a key element in the planning and implementing process for the Prompt Payment Policy, the Human Rights Commission is seeking information from those businesses who have done work for the City in the past. We truly need your input to determine the extent and type of problems which businesses have experienced in receiving prompt payment for work performed for the City. Please answer as fully as possible the questions listed below, adding any comments or additional information which you believe would be helpful, sending your response within two weeks to Gail P. Roberts at the address listed below. Use separate pages for your answers.

Dear Reader:

We are coming to the end of another year of publication of our weekly procurement bulletin, **Bid and Contract Opportunities**.

We hope that you have used the information in our publication to learn more about contracting with the City and, more importantly, that you have been successful in using the information to win City contracts.

As the year closes, the Purchasing Department would like to thank the many contracting officials in the City departments who advertise contracts in our newsletter. This past year has seen an increase in the number of contracts that are being advertised. This is a positive trend which we hope will continue in 1993.

Bid and Contract Opportunities will not be published during the Christmas and New Year's holidays. The last issue for 1992 will be December 18th. The first issue for 1993 will be January 8th.

The staff of the Purchasing Department wishes you ...

Merry Christmas

And

Happy New Year!

INSTRUCTIONS FOR BIDDERS AND CONTRACTORS

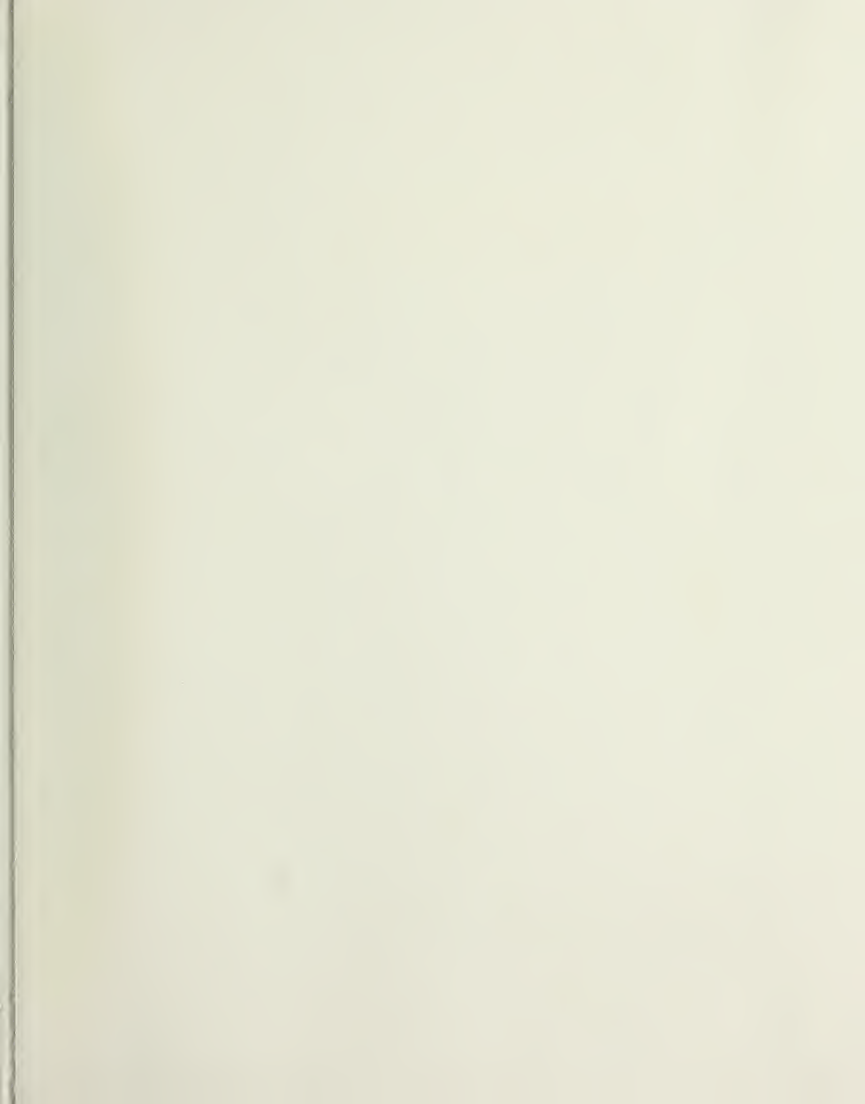

The City and County of San Francisco Purchasing Department uses a competitive bidding process to purchase the MATERIALS, SUPPLIES, EQUIPMENT and SERVICES listed on the front page of our publication. To bid on an item listed, vendors must come to the Purchasing Department, Room 270, City Hall, in San Francisco to pick up bid documents. Documents should be requested by bid number. Bids cannot be mailed by phone request.

A more detailed description or specification of the commodity or service which we are purchasing is shown on the bid document itself. In addition, terms of delivery, general conditions which apply to the purchase and other legal requirements which the vendor must comply with are a part of the documents. Vendors are encouraged to inspect the document before submitting a bid.

Bids are assigned a three, four or five digit number depending on the estimated dollar value of the purchase. Generally, four digit bids are under \$50,000 and three and five digit bids are over \$50,000. Completed bids should be returned in the envelope provided no later than the date and time indicated on the bid form. Bids are opened publicly and vendors may be present at the opening.

CONSTRUCTION, CONSULTANTS and CONCESSION/LEASE contracts are administered and awarded by the department that is offering the contract. Contact the department listed to obtain bid document and/or information on bidding procedures.
